What you should know about paying for college.

- The median college debt is around \$100K per student, and usually takes up to 20 years to pay off.
- Most people don't know how to search for college scholarship without considering the use of their retirement, savings or home equity.
- Free college is available to students who have achieved high college test prep scores.
- Colleges are ranked nationally based on the standardized scoring system. The higher the score, the more money a student is able to get!
- Being intelligent and having book smarts is not always good enough. Even smart kids bomb standardized tests.
- Most students are not able to finish these tests on time because you only get about 1 minute per question.
- Students from 7th grade and above should consider taking this class. Early preparation gives students the ability to discover their weaknesses, long before there is a lot of pressure to raise their scores during their junior and senior years.

Why College Prep Genius?

- ✦ Unlike most test prep programs, College Prep Genius does not teach memorization or simply reteach high school. We **teach relevant strategies and the logical recurring patterns** found on standardized tests.
- ✦ The average College Prep Genius student raises their score 250 points. Many have **increased their SAT scores by as much as 700 points**, become **National Merit Scholars** and gone to **Ivy Leagues for FREE!**
- ✦ College Prep Genius can help you with other standardized tests, including the PSAT, ACT, and CLT. Did you know the **SAT and ACT are about 95% the same test**, and a lot of the ACT writers now work for the College Board (SAT makers). The formatting is almost identical so there is a crossover of information that works on the ACT.
